Final Score _____

If you have chosen this option, that means that you want to focus your midterm efforts on a research paper as opposed to the 1st option which is a group oral presentation.

I strongly recommend that you build upon past research that you conducted for your mini oral presentation you gave earlier in the semester. In so doing, you will be able to deepen your knowledge even further, provided you enjoyed the topic.

I am looking for you to make meaningful connections with what you are learning. A huge portion of your graduate education is about discovering concepts, theories, practices, etc., and synthesizing them to construct even greater, more thorough and richer insight into this field, all in its eventual application to your chosen path.

Therefore, what you choose to research must be relevant and possess a plethora of these connections.

The paper is to be at least 5 pages of text not including the reference list or title page.

You must have a clearly articulated thesis statement that must be underlined with a minimum of five sources. APA is mandatory and must be applied comprehensively in all your work.

Please refer to owl Purdue on line writing lab APA.

Please inform me of what you are planning to do research on. God forbid you do all that work for me to say it is not relevant or isn't possible.
